Re; Carlsbad Energy Center Project (07-AFC-6)
Intervenor Power of Vision's Status Report (June 2009)

Dear Commissioners:

Power of Vision (POV) hereby submits this Status Report in compliance with the Committee's request that all parties submit such reports every six weeks.

Current Issues and Activities

Power of Vision continues to generate community and regional support against the Carlsbad Energy Center Project. We have an addition 500 signatures to docket. That brings the total to over 2000 residents of the area opposed to the project.

We have requested the EPA to determine if NRG should be required to submit a Prevention of Significant Deterioration permit.

We have asked the CEC to compel NRG to comply with our data request. The issue is a holdover from our June 5 report.

"On June 1, 2007 POV forwarded to CEC Staff a data request asking the Applicant to make available for review the original documents wherein the Applicant recorded hourly data on run time, NOx emissions, fuel consumed and kilowatts generated for Encina units 1 – 5 for the years 2002 –2008. We have made this request because of anomalies uncovered in the data previously provided by the Applicant to the CEC and the San Diego Air Pollution Control District (SDAPCD)."

Sincerely yours,

Julie Baker
Arnold Roe
